

OLD JEANS

GLICERINI RAMA

OLD JEANS

40% H.T.
POLYESTER
COATED WITH
60% TWISTED
COTTON

The name of the product itself reflects the need to create a sewing thread that closely resembles the cotton threads traditionally used for stitching jeans.

The effect achieved after treatment is distinctly 'Used' and pleasant. The 40% high-tenacity polyester core prevents the thread from breaking, unlike a 100% cotton thread, which could break when subjected to stone-washing treatments.

Characteristics

High Tenacity

Applications

JEANS

Fields of application

OLD JEANS ET.100	Internal overlocking of denim garments. Denim shirts with a 'Used' effect.
OLD JEANS ET. 75	Internal overlocking of denim garments. Denim shirts with a 'Used' effect.
OLD JEANS ET. 50	Reinforcement seam and internal understitching of denim garments, buttonholes, and bar tacks.
OLD JEANS ET. 28	Topstitching on denim garments with a very pronounced 'Used' effect.
OLD JEANS ET. 20	Topstitching on denim garments with a very pronounced 'Used' effect.
OLD JEANS ET. 12	Topstitching on denim garments with a very pronounced 'Used' effect.
