

CUSTOM YARN

CUCIRINI RAMA

**CUSTOM
YARN**

The Custom Yarn line offers a unique opportunity for companies to create a specific yarn tailored to their needs. The thread can feature the desired combination of thickness, color, and material, making it truly original and exclusive.

This line also allows for the inclusion of metallic foils to achieve very unique effects, while ensuring excellent resistance to various dyeing, abrasive, and other treatments. At the same time, it maintains the excellent sewability and post-sale performance characteristics typical of our yarns.

Custom Yarn embraces the concept of personalization, assisting Design Centers in their continuous pursuit of creating innovative and unique final products.

The line consists of three items, each differentiated by their composition:

- **CUSTOM BRIGHT** - The inclusion of wash-resistant metallic foils makes it the most vibrant and exclusive series.
- **CUSTOM LIGHT** - In this case, the addition of special foils that create contrasts and color effects generates unique light refraction patterns in the yarn, resulting in always-surprising outcomes.
- **CUSTOM TWIST** - Finally, a range of yarns that, thanks to their complete customization potential, are designed for those seeking a matte effect, a vintage look, or an exquisitely ornamental style.
